

### **TEACHING HOSPITAL NEUROLOGY SERVICE**

The neurology service is composed of two Board Certified neurologists and a third neurologist with expertise in large animal neurology. The service is responsible for the clinical, educational and research neurology program. Referral appointments, neurological emergencies and internal consults in small and large animals are offered through the Teaching Hospital. Neurology graduate students (DVSc) are trained in a medical neurology and neurosurgery program approved by the American College of Veterinary Internal Medicine. The main research interest of the group focuses on canine epilepsy.
